

# Pierce County Flood Management Public Open House

## You're invited !

Pierce County is developing a Rivers Flood Hazard Management Plan. The plan will guide the county's efforts to reduce damage from floods and channel migration, and protect public safety and habitat.

We want to share information about the plan, what we have learned so far, the planning steps, and hear your thoughts about flood management issues and possible solutions.

For more information about the meetings, please contact Melissa Paulson at:
